Please use medium volume if possible. Don't use high volume for long periods of time. Using headphones will affect your perception of the surrounding environment. Pay more attention when using headphones. Do not remove or modify the headphones as this may cause damage or burn out. Do not throw/bet on headphones or put them into a fire. Keep it away from fire, hydration and high pressure equipment. Not suitable for children under 10-year-old containing small parts. Do not classify it as household waste. Please send it to the local electrical equipment recycling station. When using the headset, do not exceed the depth of 2 meters underwater. It can be used in fresh water, tap water, swimming pool water, sea water, etc. It cannot be used in salty water, body wash, shampoo or high temperature and high humidity environment. The charging pole piece has been treated for anti-corrosion, but the seawater is highly corrosive. It is recommended to clean it in time after soaking in seawater. <p>Note: The company does not assume any responsibility for the loss of personal property caused by the violation of the above warnings.</p>
