# **ABE-STOR<sup>®</sup>**

**ABE-STOR** Spare Parts (GuangDong) Co., LTD., located in Guangzhou, the center city of auto parts in China, is a leading enterprise engaged in auto parts export, integrating "research and development, production, sales and service".

Since its establishment in 2008, in order to set up the quality benchmark in the industry, the company has continuously absorbed the advanced technology and manufacturing process of the United States and Japan, to provide a variety of parts for Japanese, Korean, European, American cars, including suspension parts, electronic parts, engine parts, etc. Product performance and quality meet international standards.

Relying on advanced technology, efficient production, perfect testing equipment and strict quality inspection, Abeston takes "quality is life" as the product concept and "long-term cooperation relationship" as the service goal, which has been recognized and highly appraised by foreign cooperative customers for a long time. Exports increased year by year.
