RE: File 7052 – “Plumbing Fixture Fittings” ***3RD REQUEST***

Dear HONG LIN

Please be advised that we have renewed your file to the 2011 edition of ASME A112.18.1/CSA B125.1. However, we have not yet received your reply to the attached letter. In order to update your file to the 2012 edition of the standard, please provide proof of compliance to NSF 372-2011 for applicable models within one year from the date of this letter. This can be achieved either through a test report to NSF 372-2011 from an IAPMO R&T recognized lab, or by showing evidence of listing to NSF 372-2011.

Please note that if the required proof of compliance is not received by your next renewal, we may be unable to further renew your listing.

Feel free to contact us should you have any questions or concerns.

Sincerely

Anish Desai
Director of Product Certification
