HANGING MIRROR

In addition to the most basic decorative function, the mirror can also reflect the characteristics of light is used to solve the door defects of some not ideal houses. The mirror is placed in some places where the light is weak, and the light from other Spaces is introduced by the principle of refraction, so that the visual sense of the room is brightened. Ablating mirror face, argent clean is provided, shimmering material pledges to let a bathroom be full of cool meaning, summer can feel very cool certainly in such bathroom. And arrive in winter, need to find out soft blanket in the home and environment harmonious collocation only, can increase the sense of the warm and thick volume of the bathroom.
