ZHONGOU[®]
SANITARY WARE

Key projects in Jiangmen City

ZHONGOUNEW FACTORY BRIEF INTRODUCTION

Due to business expansion, Guangdong Zhongou Sanitary Ware Co., Ltd. invested more than 100 million yuan to build a new factory, building a new factory covering an area of more than 60 acres and a factory building of more than 50,000 square meters, including multiple production workshops, office buildings, and staff dormitories. And other supporting facilities. Now we have 5 standard automated production plants and assembly line production workshops. The factory covers an area of more than 100,000 square meters.

ZHONGOU sanitary ware is committed to providing genuine materials and set high standards, and we will also try our best to offer superior quality product and attentive service for each construction project and family.

Terminal image display

The image design style of the Sino-European sanitary ware terminal specially invites foreign design masters to create it based on the brand concept of Sino-European sanitary ware - real materials and European and American quality. It adopts a post-modern style and uses black and white as the main color. Through the designer's superb integration, the storefront High-end, bright and simple, comfortable and warm, it creates a five-heart shopping experience for consumers that is comfortable, assured, safe, worry-free and satisfying.

Technology And Cutting-Edge

Frontier technology

The romancer race innovations with a vast space make the bather`s unfettered gallop easy and unlimited imagination possible. The profound temperament of humanism is incarnated in the attention from the space to the mind, from the reality to the ideal.

Environmental-friendly
Lead-free material and technology abide by American environmental regulation

Top brass material
Use material that is above international standard

Air-in rainshower
Infuse air into water to create soft and full raindance

Precise casting
Cast by Italian IMR die gravity casting machine, each product is smooth and thickness-even in structure.

Spout as diverter
Spout works as diverter from various functions

CNC machining
Manufactured by precise CNC machining

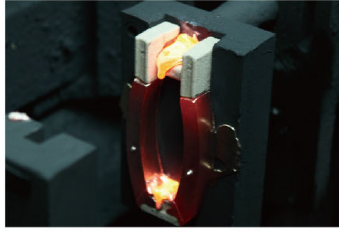

Polishing by nine steps
Polished through handmade nine steps, the surface is delicately shining and perfect

Installation friendly
Installation is easily achieved even in complex and narrow space.

National standard brass ingot, national standard copper, after polishing, without any impurities, sand holes, cracks, waves and other phenomena, quality requirements are extremely strict, beyond national standards, fully in line with international standards.

Using the advanced gravity casting process, the faucet shell is cast by the international top with tight structure, dense crystal and uniform thickness.

The most advanced CNC machining center.

The world's most famous CNC (automatic machining center) multi-process processing to ensure the processing of the height of the recognition and finish of the processing surface, to ensure the long-term sealing performance of the product.

Product sanding process.

Imported automatic polishing machine internal process.

Electroplating process and quality are leading in the industry. On the fully automatic ring electroplating line with a total length of 120 meters, the surface of products is treated with five layers of electroplating to resist strong acid corrosion, which is higher than CASS test standards Unique star plating TM process.

Germany imported spectrometer (copper, steel composition detection, coating thickness detection)

Metallographic microscope imported from Germany (crystallization, density detection)

Quality testimony

High quality raw materials, in line with international standards, the use of high quality brass in line with international standards as raw materials, the material is pure and high density, can effectively avoid leakage, clean and bright after electroplating; Material does not contain toxic impurities, in line with green health requirements!

National standard copper material

Body

Quality cartridge

Heart

Quality aerator

Output

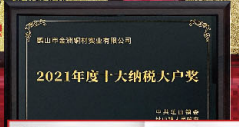

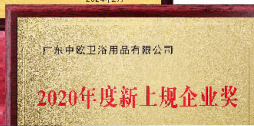

Quality cartridge

Features:

- 1, Quality ceramic cartridge, no lead, more durable
- 2, Brass has good corrosion resistance
- 3, Brass ion has a strong disinfection and sterilization effect, can prevent the prevalence of some common livestock diseases, copper is an indispensable micronutrient of human health, has an important impact on the human body.

Zhongou Honor And Attentive Service

To Bring Forth The New Ideas To Achieve Transcendence

The development level of enterprise depends upon quality and speed of innovation. To achieve sustainable development with new conception, launch high quality products with new technology and shape its efficient team with new management pattern, the boundless innovation energy has been a soul of growth for our, which has reinforced its faith of development. Innovation, more innovation without end... ..

our has been finding customers' expectations and meeting the customers' demand as it holds that customers' satisfaction is a motive power of its own survival and development. Service is not an extension of product presentation but an important part of production structure. The service conscious ness of utmost sincerity is an indispensable element of each person from our.

*Refulgence future
to continue with you...*

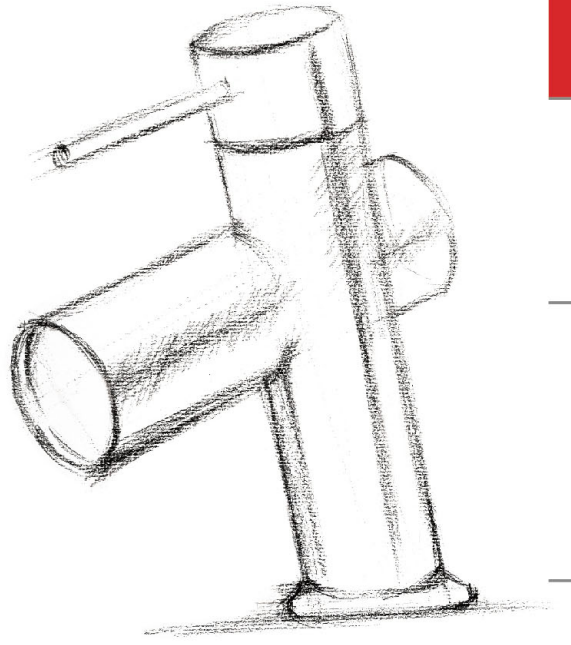

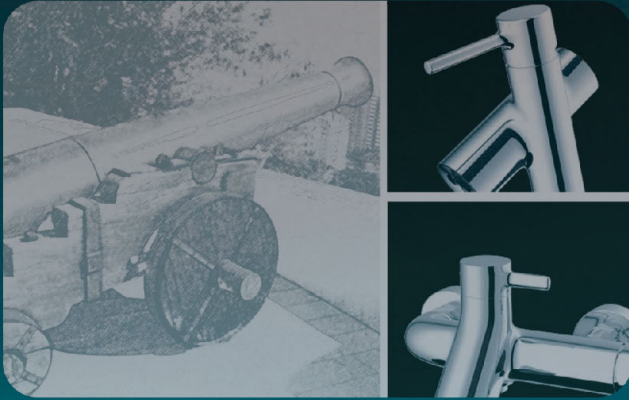

Heavy Series

Give me where to stand,
and we will move the world

Heavy Series

Highly creative structural design has been breathtaking, in the production process is worth your careful taste, from the details you can also see the quality of the product.

The rhythm of the space comes from the inspiration of design, the eternal beauty flows in the simple lines, and the noble thoughts are nurtured in the ordinary life.

We also deeply realize that only the perfect pursuit of details can truly make you satisfied.

Health and environment

Stainless steel material safety lead-free, no odor or turbidity problems, will not cause the water quality, keep the water pure and to achieve complete guarantee.

Surface treatment

Physical surface treatment, no plating, do not the coating falling off the impact of beauty stainless steel material itself luster, can maintain as new.

Property

Stainless steel has heat resistance, at high oxidation resistance or resistance to gas performance that is thermal stability, while have enough strength that is thermal strength "high temperature zone" is a hotbed for heat-resistant stainless steel faucets more

By the simple lines

By the simple lines, portraying a sense of exquisite, of new classic. By the agile postures, showing a sense of romance of post contemporary age. Merging with the specialized and wise experiences.
