Made in China

Features

- Spout-shape design: When moms need to pour out milk, they can follow the dotted line to cut the spout easily and quickly.
- There are symbols on the body of bags change when temperature changes (Check graph right).
- Environment protection and non-toxic. Safe materials.
- Double-layers sealing strip design enhances the leak-proof and isolates the air.
- 7oz/200mL large-size storage and can be stored upright.
- Moms can mark the date on the body of bags to avoid the milk expired.

Cautions

- The bag will expand when it is frozen, so it can't storage milk more than 4oz/120mL or 7oz/200mL .
- When moms need to haw the milk, please use Bottle Warmer or warm water(122°F to 140°F/50°C to 60°C) to heat the bag. DO NOT use the microwave or boiling water to heat the milk or the nutrition will lose.
- Please use Marker Pen to record the date on the bag. DO NOT use sharp pen to record to avoid the bag break.
- DO NOT refreeze breast milk which had been unfrozen before.
- Please store it where children can not reach.
- This product is a disposable item. DO NOT reuse it.
- Please storage the bag upright on the fridge when you freeze the milk.
