

Dear MR/MRS

This is DZH form China chemical factory.

Very happy, you are paying attention to our products.

The following is the relevant information of our products.

【INTRODUCTION】

- Product name: PVC processing aid ACR D20
- Appearance: White powder
- Properties of processing aids: It is an acrylic polymer, a long-chain, soft polymer with excellent compatibility with PVC.

Functions of processing aids:

- ▲ Promote plasticization
- ▲ Increase melt strength, ductility and elasticity
- ▲ Improve the gloss of the product, reduce the formation of air spots, and obtain a good appearance
- ▲ Has a lubricating effect and prevents molten plastic from sticking to metal surfaces

Field:

Mainly used in PVC profiles, special profiles, PVC pipes, and pipe fittings

【QUOTE】

- Ex-factory price: USD1.77/kg (excluding shipping)
- This is a base price. If you purchase more quantity we will give you more favorable price. Thanks!

【PACKAGE】

- Net weight: 25kg per bag
- Measure 540*310*150(mm) per bag
- Max loading weight: 28t (20GP)
